

Extract salivary stones.

NCircle®

TIPLESS SALIVARY STONE EXTRACTOR

Illustration by Lisa Clark

Atraumatic design

The tipless design minimizes trauma to the duct and reduces the risk of ductal wall perforation.

Ergonomic

The handle is easy to use and allows you to deploy the stone extractor single-handedly.

Durable

The stone extractor's nitinol material is flexible and kink resistant.

NCircle®

TIPLESS SALIVARY STONE EXTRACTOR

Used for manipulation, entrapment and extraction of calculi and other foreign bodies in the salivary ducts, and to minimize migration of salivary stones during interventional procedures.
